Environmental Policy

Policy Sponsor: Infrastructure and Environment	Policy Number: 00013	Supersedes:
Policy Lead: Roger Steele	Effective Date: July 1, 1992	Review Date: December 6, 2024

Introductory Statement:

Through our corporate core value of 'Dedicated to Sustainability', Edmonton Airports (EA) is committed to action on Environment, Social, and Governance (ESG). We are a responsible steward of the environment and understand that protecting the environment is in the best interest of our employees, customers, stakeholders and community.

The Purpose of this Policy is to:

This Environmental Policy enhances our commitment to and accountability for our environmental performance while considering financial and social impacts. Our Environmental Policy fully supports EA's Noble Cause, Vision, Mission and Core Values. EA is committed to continuous environmental improvement within business areas we control and influence.

Policy Statements:

To successfully and sustainably implement this policy, EA will:

1. Comply with all applicable environmental laws and regulations;
2. Minimize environmental risk through the implementation of environmental plans and programs that are appropriate to the nature and scale of EA's airports;
3. Set environmental goals and report our performance publicly;
4. Include environmental sustainability when planning and developing airport lands;
5. Actively pursue carbon management and energy efficiency, pollution prevention, and waste reduction programs, where appropriate, to reduce our impact on the environment;
6. Include environmental sustainability in the products and services EA procures;
7. Provide education and awareness of environmental programs and activities to our employees, partners, customers, and the community; and
8. Provide effective insights to national and global ESG aviation discussions and initiatives.
